

Cutter Plotter&Heat Press T-shirt Transfer Start Up Kit

US\$ 1999

This start up kit offers cutting plotter and heat press T-shirt transfer. With this package you can heat press characters and patterns on T-shirts directly. **SAVED \$154.5**, only **\$ 1999** now!

Cutter plotter was a widely used professional tool of cutting characters and patterns on sign vinyl in advertising industry. It can be applied to advertising and decoration industry such as car body and glass. With the development of materials in cutting industry, cutter plotter has been applied to cut patterns for garment heat press (PU vinyl transfer) and decorations on glass of doors and windows.

The equipment, materials, technique and service we offer can be widely used in:

Advertising industry-sign vinyl.

Apparel industry-PU vinyl transfer is widely applied in two ways. First, cut and heat press numbers and letters on sportswear. Secondly cut and heat press concolorous or chromatic patterns to create personalized T-shirt.

Decoration industry-cut frosted window mask to decorate doors, windows and so on.

The essential materials you need to start up and do your own business are all in readiness, there is no need for you to buy any other equipments and materials at the beginning.

Meanwhile, we supply English instruction and direction to buyers so that they can operate and make satisfactory products once they have this package.

Buyers need to collect information while make design. However, common pictures such as JPG and JIF format become vague after enlarged because they are too small. To solve this problem, we highly suggest you download and select more than 300DPI pictures.

We hope buyers can enjoy themselves in the process of cutting patterns and heat press so that our product can be widely used in advertising and decoration industry while bring them great economic value.
